

City of Fall River
Massachusetts
Office of the Mayor

JASIEL F. CORREIA II
Mayor

Council President Ponte,

Pursuant to our phone conversation early this afternoon regarding our next steps, I am recommending the following:

To the extent that the City Council has concerns about transparency and official government business, I believe it is important for the Council to participate in reviewing official mayoral actions.

In order to continue to provide an open and transparent government for the benefit of our citizens and city, I welcome collaboration and careful review to ensure the Council is comfortable performing their duties regarding city business and votes.

I would like to extend the offer that in the immediate future and on a voluntary basis, the City Council President or Vice President have the opportunity to "co-sign" official documents as an additional level of comfort for the Council.

As City Council President, this affords you to assure the public that all city business is being reviewed, approved and conducted in accordance with local ordinances and state and federal requirements.

It is important that city business continues and maintains stability to the best of our abilities.

Best Regards,

Jasiel F Correia II

Mayor
