# **Dashboard of Public Health Indicators**

Please note: The front page of the dashboard has been reformatted. Probable case and death information can be found on page 21. Antibody tests (individual and total numbers) can be found on page 7. For more information on the COVID-19 case definition, see <a href="https://cdn.ymaws.com/www.cste.org/resource/resmgr/2020ps/Interim-20-ID-01">https://cdn.ymaws.com/www.cste.org/resource/resmgr/2020ps/Interim-20-ID-01</a> 1

#### Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020 Dashboard of Public Health Indicators Percent Change Since April 15th

\*Includes both confirmed and suspected cases of COVID-19; \*\*Includes deaths in only confirmed cases of COVID-19

Note: Due to the recent change in federal hospital reporting requirements and definitions which went live July 22, ongoing data accuracy and integrity issues were experienced with today's report. The third graph (number of hospitals using surge) does not include data from July 22 due to this challenge. DPH and the reporting hospitals are making every effort to mitigate these reporting challenges and publish corrected data in the near future.

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; Tables and Figures created by the Office of Population Health. Note: all data are current as of 10:00am on the date at the top of the page; \*Excludes unknown values. Data previously shown according to date report received; data now presented according to date the individual was tested. Due to lag in reporting by laboratories, counts for most recent dates are likely to be incomplete. Includes both confirmed and probable cases. Information on probable case counts and deaths may be found on page 21.

### Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020

# **Testing by Date - Molecular (Individuals)**

Total Number of Individuals with at Least One Molecular Test Performed by Date

● New Individuals Tested by Molecular Method ● Cumulative Individuals Tested by Molecular Method

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; Tables and Figures created by the Office of Population Health. Note: all data are current as of 10:00am on the date at the top of the page. Data previously shown according to date report received; data now presented according to date the individual was tested. Due to lag in reporting by laboratories, counts for most recent dates are likely to be incomplete. Testing by Date - Molecular (Individual) counts the number of individuals with at least one molecular test; Testing by Date - Molecular (Total Tests Conducted) counts the total number of molecular tests performed. This includes individuals who have had more than one molecular test. Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020

# **Testing by Date - Molecular (Total Tests Conducted)**

Total Number of Molecular Tests Performed by Date

● First Molecular Test Per Individual ● Molecular Tests that are Repeated in Individuals

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; Tables and Figures created by the Office of Population Health.

Note: all data are current as of 10:00am on the date at the top of the page. Data previously shown according to date report received; data now presented according to date the individual was tested. Due to lag in reporting by laboratories, counts for most recent dates are likely to be incomplete. Testing by Date - Molecular (Individual) counts the number of individuals with at least one molecular test; Testing by Date - Molecular (Total Tests Conducted) counts the total number of molecular tests performed. This includes individuals who have had more than one molecular test.

Cumula

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; Tables and Figures created by the Office of Population Health. Note: all data are current as of 10:00am on the date at the top of the page. Data previously shown according to date report received; data now presented according to date the individual was tested. Due to lag in reporting by laboratories, counts for most recent dates are likely to be incomplete. Please note that some individuals have been tested by both molecular and antibody methods.

Sunday, July 26, 2020

# **Cases and Case Growth by County**

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; County Population Estimates 2011-2018: Small Area Population Estimates 2011-2020, version 2018, Massachusetts Department of Public Health, Bureau of Environmental Health; Tables and Figures created by the Office of Population Health. 8 Note: all data are cumulative and current as of 10:00am on the date at the top of the page. Includes both probable and confirmed cases.

## Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020 **Prevalence by County**

Rate (per 100,000) of Total COVID-19 Cases by County (n=115,637)\*

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; Map created by the Office of Population Health; County Population Estimates 2011-2018: Small Area Population Estimates 2011-2020, version 2018, Massachusetts Department of Public Health, Bureau of Environmental Health; Note: All data are cumulative and current as of 10:00 am on the date at the top of the page. Includes probable and confirmed cases.

9

## Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020 Daily and Cumulative COVID-19 Hospitalizations

#### Patients Reported as Hospitalized\* with COVID-19 by Date

New Hospitalizations by Date
Number of Hospitalized COVID-19 Patients by Date

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences and MDPH survey of hospitals (hospital survey data are self-reported); Tables and Figures created by the Office of Population Health.

Notes: data are current as of 12:00pm on the date at the top of the page. Due to the recent change in federal hospital reporting requirements and definitions which went live July 22, ongoing data accuracy and integrity issues were experienced with today's report. Given the importance of this particular metric, the state proactively validated the July 22 hospitalizations with nearly all acute care hospitals. Hospitals indicated that the daily variances are partially driven by a more accurate accounting of which patients should be reported as "suspected" COVID patients. DPH and the reporting hospitals are making every effort to mitigate these reporting challenges and publish corrected data in the near future.

### Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020

## **New Daily COVID-19 Hospital Admissions**

Confirmed and Suspected COVID-19 Hospital Admissions by Day

Confirmed COVID-19 Hospital Admissions Suspected COVID-19 Hospital Admissions

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences and MDPH survey of hospitals (hospital survey data are self-reported); Tables and Figures created by the Office of Population Health.

Notes: data are current as of 12:00pm on the date at the top of the page. For purposes of this reporting, "confirmed" are cases with a PCR test. "Suspected" are those with symptoms who have not had a test result yet. Due to the recent change in federal hospital reporting requirements and definitions which went live July 22, ongoing data accuracy and integrity issues were experienced with today's report. The chart on this page does not include data from July 22 due to this challenge. Hospitals indicated that the decrease in suspected COVID-19 hospital admissions on July 23 is partially driven by a more accurate accounting of which patients should be reported as "suspected" COVID patients. DPH and the reporting hospitals are making every effort to mitigate these reporting challenges and publish corrected data in the near future.

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences and the Registry of Vital Records and Statistics; Tables and Figures created by the Office of Population Health Note: all data are current as of 10:00am on the date at the top of the page; \*Counts on the trend chart do not match total number of deaths reported, as there is a several day lag in reporting by date of death. Includes both probable and confirmed cases.

Sunday, July 26, 2020

# Cases and Case Rate by Age Group

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences, Population Estimates 2011-2018: Small Area Population Estimates 2011-2020, version 2018; Tables and Figures created by the Office of Population Health.

Note: all data are cumulative and current as of 10:00am on the date at the top of the page. Includes both probable and confirmed cases.

Count

### Massachusetts Department of Public Health COVID-19 Dashboard -Sunday, July 26, 2020 **Hospitalizations & Hospitalization Rate by Age Group**

68

Rate (per 100,000) of Total COVID-19 Cases Total COVID-19 Cases Reported as Reported as Hospitalized\* by Age Group Hospitalized\* by Age Group 4.000 1.400 3,650 1,252 3.500 1.200 3.000 100,000 1.000 Average Age of Total 2,540 **Cases Reported as** 2 500 2,280 per Hospitalized\* Hospitalizations 2,000 1,530 529 1.500 1.000 848 276 558 200 158 500 303 100 118 0-19 20-29 30-39 40-49 50-59 60-69 70-79 80 +0 - 1920-29 30-39 40-49 50-59 60-69 70-79 80+ Age Group Age Group

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; Population Estimates 2011-2018: Small Area Population Estimates 2011-2020, version 2018; Tables and Figures created by the Office of Population Health.

Notes: all data are cumulative and current as of 10:00am on the date at the top of the page; \*Hospitalization refers to status at any point in time, not necessarily the current status of the patient, demographic data on hospitalized patients collected retrospectively; analysis does not include all hospitalized patients and may not add up to data totals from hospital surveys. Includes both probable and confirmed cases.

## Massachusetts Department of Public Health COVID-19 Dashboard -Deaths and Death Rate by Age Group

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences and the Registry of Vital Records and Statistics; Population Estimates 2011-2018: Small Area Population Estimates 2011-2020, version 2018; Tables and Figures created by the Office of Population Health.

Note: all data are cumulative and current as of 10:00am on the date at the top of the page. Includes both probable and confirmed cases.

Sunday, July 26, 2020

Massachusetts Department of Public Health COVID-19 Dashboard -Sunday, July 26, 2020 **Deaths and Death Rate by County** 

Count of Deaths in Total COVID-19 Cases by County

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; County Population Estimates 2011-2018: Small Area Population Estimates 2011-2020, version 2018, Massachusetts Department of Public Health, Bureau of Environmental Health; Tables and Figures created by the Office of Population Health. 17 Note: all data are cumulative and current as of 10:00am on the date at the top of the page. Includes both probable and confirmed cases.

# Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020 Deaths by Sex, Previous Hospitalization, & Underlying Conditions

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences and the Registry of Vital Records and Statistics; Demographic data on hospitalized patients collected retrospectively; analysis does not include all hospitalized patients and may not add up to data totals from hospital survey; Tables and Figures created by the Office of Population Health. Note: all data are cumulative and current as of 10:00am on the date at the top of the page; \*Hospitalized at any point in time, not necessarily the current status; \*\*Only includes data from deaths following completed investigation, figures are updates as additional investigations are completed; + Excludes unknown values. Includes both probable and confirmed cases.

## Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020 Cases, Hospitalizations, & Deaths by Race/Ethnicity

The following caveats apply to these data:

1. Information on race and ethnicity is collected and reported by laboratories, healthcare providers and local boards of health and may or may not reflect self-report by the individual case.

2. If no information is provided by any reporter on a case's race or ethnicity, DPH classifies it as missing.

3. A classification of unknown indicates the reporter did not know the race and ethnicity of the individual, the individual refused to provide information, or that the originating system does not capture the information.

4. Other indicates multiple races or that the originating system does not capture the information.

**Note**: COVID-19 testing is currently conducted by dozens of private labs, hospitals, and other partners and the Department of Public Health is working with these organizations and to improve data reporting by race and ethnicity, to better understand where, and on whom, the burden of illness is falling so the Commonwealth can respond more effectively. On 4/8, the Commissioner of Public Health issued an Order related to collecting complete demographic information for all confirmed and suspected COVID-19 patients.

● Hispanic ● Non-Hispanic Asian ● Non-Hispanic Black/African American ● Non-Hispanic Other ● Non-Hispanic White ● Unknown/Missing

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences and the Registry of Vital Records and Statistics; Demographic data on hospitalized patients collected retrospectively; analysis does not include all hospitalized patients and may not add up to data totals from hospital survey; Tables and Figures created by the Office of Population Health. Note: all data are cumulative and current as of 10:00am on the date at the top of the page; \*Hospitalization refers to status at any point in time, not necessarily the current status of the patient/demographic data on hospitalized patients collected retrospectively; analysis does not include all hospitalized patients and may not add up to data totals from hospital surveys. Includes both probable and confirmed cases. 19

## Massachusetts Department of Public Health COVID-19 Dashboard - Sunday, July 26, 2020 COVID-19 Cases in Long-Term Care (LTC) Facilities

Residents/Healthcare Workers of Long-Term Care Facilities with Probable or Confirmed COVID-19

24,055

Long-Term Care Facilities Reporting At Least One Probable or Confirmed Case of COVID-19

371

Probable or Confirmed COVID-19 Deaths Reported in Long-Term Care Facilities

5,433

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences and the Registry of Vital Records and Statistics; Tables and Figures created by the Office of Population Health Note: all data are cumulative and current as of 10:00am on the date at the top of the page. Data includes nursing homes, skilled nursing facilities, and rest homes.

Sunday, July 26, 2020

# **Probable Case Information**

Patients with a positive serology/antibody test and either COVID-like symptoms or likely exposure to COVID-19 are counted as probable cases. Patients who did not have a laboratory test but whose death certificate listed COVID-19 as a cause of death are counted as probable deaths. Patients who did not have a laboratory test but had COVID-like symptoms and were likely exposed to COVID-19 are counted as probable cases. Probable cases are included in all counts from March 1 onward.

For more information on the Probable case definition, see https://cdn.ymaws.com/www.cste.org/resource/resmgr/2020ps/Interim-20-ID-01\_COVID-19.pdf

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences, and the Registry of Vital Records and Statistics; Tables and Figures created by the Office of Population Health. Note: all data are current as of 10:00am.

Sunday, July 26, 2020

## **Total Hospital Capacity by Region**

Data collected as of 7/25/2020 5:00pm

Occupancy/ availability as reported by hospitals to DPH.

Regions shown represent EOHHS Regions. Note that total bed estimates may change day-to-day due to hospitals updating surge planning. As of June 16th, data reflects updated data collection methodology and the removal of unstaffed beds from this analysis. Analysis here reflects total beds that hospitals could staff within 12-24 hours.

Sunday, July 26, 2020

## **COVID** Patient Census by Hospital (1/3)

Data collected as of 7/25/2020 5:00pm
